

STUDENT INSTRUCTIONS

Those taking this course for credit have up to one year to finish it and still receive a credit. Those who are auditing the course are not required to do the assignments nor take the quizzes though they may, and will gain more knowledge by doing so

The course is basically designed to complete one lesson per week, but can be spread out some when needed. Students should endeavor to get their lessons done in a timely fashion. Procrastination is one of Satan's favorite weapons. Set a specific time and place to take your lessons if possible

Pray before each class for understanding, life change and continual use of the knowledge gained.

When students are taking a course online and their instructor tells them to fill in the blank, don't despair, we have filled it in for you.

Most students have discovered it is far more productive to take and finish one course at a time and to start with the Laymanship Course for a good foundation.

Quizzes or Tests: You may study the quiz material before taking the quiz or test, but do not look at any notes once you start the quiz or test. For your final grade add the number of points on all the quizzes and divide by the number of quizzes given in the course. If you cheat, you are cheating yourself and your relationship to the Lord who is watching.
